# FOUNDATION COURSE

## Monday Evenings 6.30pm-9pm OR Saturdays 10am-5pm

The Foundation Course is for complete newcomers to astrology as well as for those who wish to consolidate their previous knowledge within a structured course. The focus throughout is on learning the art of chart interpretation and the course aims to provide an understanding of the language of astrology and the ability to interpret the basic birth chart with confidence. Along the way, you will also learn the art of calculating a birth chart and will acquire the astronomical knowledge which supports this process. You will also be introduced to the history of western astrology and encouraged to explore your own ideas about the nature of astrology and its place in the world.

Completion of the Foundation Course is a significant achievement and will provide you with a solid basis for more advanced study. On completion, each module also attracts 20 credits towards the Faculty's Diploma. Full details of the credit-based qualification system can be found on the Faculty website [www.astrology.org.uk/courses-overview](http://www.astrology.org.uk/courses-overview)
