## Summer School

---

Our Summer School is recognised internationally as a unique event in the astrological calendar, attracting students and tutors from around the world.

Our programme caters for a range of levels, from relative beginners through to students and practitioners at advanced and professional level. This is a chance to work with astrology in depth, developing knowledge of new subjects and techniques, and deepening your understanding of existing ones.

We will do our very best to make you feel welcome and at home. Our Summer School team, led by Carole Taylor and Lindsay Gladstone, ensures the smooth running of the School, leaving you free to enjoy the astrology, the community of tutors and students, and the beauty of Exeter College.

## Our Venue - Exeter College, Oxford

---

Exeter is one of Oxford's oldest colleges, founded in 1314 and located at the heart of the city. It is also one of the most attractive, with architecture ranging from the early 15th century Tower to the magnificent Gothic chapel and Jacobean dining hall. Within its walls are peaceful gardens and the main quadrangle is one of the most beautiful in Oxford.

Many famous people studied here, including J.R.R. Tolkien and the pre-Raphaelite artists William Morris and Edward Burne-Jones, some of whose original work is on display in the college. Philip Pullman, author of the magical trilogy *His Dark Materials*, was also an undergraduate, basing his fictitious Jordan College on Exeter.

## Oxford

---

The 'City of Dreaming Spires' has a tradition of learning dating back to the 12th century. Noted for its rich heritage, it displays many periods of English history as well as offering a wide range of interesting shops and markets. Your stay here will immerse you in Oxford's unique atmosphere, where ancient traditions still infuse the life of the city.

Oxford is well served by transport with a mainline railway station and excellent coach services, including direct links from central London, as well as Gatwick, Heathrow, Luton and Stansted Airports. Travel information will be sent to you on enrolment.

## The Faculty of Astrological Studies

---

Founded in London in 1948, we have an international reputation for excellence in astrological education. Our courses are available year-round via distance learning or London classes, with some of our modules scheduled each year at the Summer School. You can take a Foundation Course with us, gain a professional Diploma, or simply attend a module or part-module to brush up your skills in a particular area of interest. Visit our website for more information - [www.astrology.org.uk](http://www.astrology.org.uk)

The Queen and King, representing two alchemical principles (from Salomon Trismosin: *Splendor Solis*, 1582)

psychological processes involved as the base matter of the horoscope becomes alchemical gold. We will compare the major alchemical stages with planetary transits, working on our own charts to identify and engage with the different stages on the journey towards the mystical marriage, the goal of the alchemical opus.

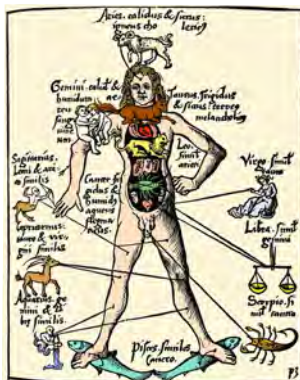

## Astrology and Alchemy

Clare Martin

Astrology and alchemy have always been twin sciences in the esoteric or mystery traditions. Alchemy was considered as a process begun by nature but requiring the conscious art and effort of human beings to bring to completion. Astrologically, this refers to the possibility of deliberate co-operation in transforming the lived experience of the birth chart.

During this weekend we will create our own alchemical laboratory and explore the

calculation and meaning of your temperament type including an interactive session (bring a copy of your natal chart!) and traditional holistic advice on diet and lifestyle factors. On Sunday there will be an introduction to the astrological prognosis of disease from horary charts, supported by example horoscopes and case studies.

## Applying Astrology in Holistic Health

Graeme Toby

In a series of seven sessions, Graeme Toby demonstrates the light that astrology can cast on the important topics of health and illness that was once standard in a consultation with an astrologer. After an overview of the history of astrology in medicine on the first evening, there will be a complete exposition throughout Saturday of the astrological

## Chart Interpretation Courses

These courses are designed to build skills and confidence in chart interpretation in a supported learning environment.

### Natal Chart Interpretation: Putting the Pieces Together

**Penny de Abreu and Polly Wallace**

Module 3: Foundation Course – attracts 20 credits towards the Faculty's Certificate

This is a practical course designed to help you bring together the basic building blocks of the chart – planets, signs, houses, angles and aspects – into an integrated chart interpretation. You will be working with your own and others' charts and you will gain practice and confidence in identifying the main themes in a chart. You will also explore the philosophy of astrology and its place in the modern world. This course is suitable for anyone who has a working knowledge of the planets, signs, houses and aspects, equivalent to Modules 1 and 2 of the Faculty's Foundation Course.

### Advanced Interpretation & Astro-Consultancy

**Cat Cox and Kim Farley**

Module 9: Diploma Course – attracts 20 credits towards the Faculty's Diploma

To participate in this course, you must have completed Faculty modules 1-7.

This module involves the development of consultation skills and an understanding of the ethical issues which arise in client work. You will be encouraged to develop a high degree of self-awareness through the study of the synastry between yourself and your clients, and will learn how to integrate the wide range of natal and forecasting skills and techniques covered earlier in the Diploma course into an advanced chart interpretation. These skills are developed throughout the week by carrying out a live consultation encompassing the chart preparation, conducting the live session and then a review of the consultation in a supportive and enabling environment.

Please note: These two chart interpretation courses are self-contained and develop through the week, so you are required to attend the whole course if you enrol.

**Early booking is strongly recommended as places are limited.**

Day places are also available – see the Course Fees page for details

Attendance at the two Thursday morning sessions of Track 1 attracts 5 credits towards Module 5 (Part-Module 5b: Solar Arc Directions)

Attendance at the two Friday morning sessions of Track 1 attracts 5 credits towards Module 4 (Part-Module 4b: Solar Returns)

### Astrology in Action

Astrology in Action offers three simultaneous tracks on different themes. Follow one track throughout the five days or select sessions from all three. From basic to advanced, the course provides an opportunity to extend your skills and deepen your understanding of a variety of topics.

#### Track 1: The Astrologer's Craft

**Kim Farley, Stevi Gaydon, Clare Martin and Carole Taylor**

This track presents a selection of subjects and is designed to help you practice or learn new chart skills. It will include working creatively with difficult aspects and aspect patterns and with imbalances in the chart, using coaching skills in client work, the client-astrologer relationship and the power of the consultation chart, and the practical forecasting skills of solar returns and solar arc directions.

#### Track 2: Healing the Soul

**Kim Farley, Clare Martin, Melanie Reinhart, Jane Ridder-Patrick, Carole Taylor and Graeme Tobyn**

This track looks at healing and health through the lens of astrology. We will explore the relationship between mind and body, and how astrology can reveal the essence of this relationship for each one of us and offer us a route to health and wellbeing. Included here will be sessions on Ficino's astrological magic and the idea of human life as a reflection of the heavenly pattern, where moving in rhythm with this pattern can offer a sense of 'right living'. We will also explore the subject of death as envisaged in both traditional astrology and in Jung's Red Book.

#### Track 3: Astrology, Science and Enchantment

**Bernadette Brady, Geoffrey Cornelius, Darby Costello, Patrick Curry and Jane Ridder-Patrick**

This track will investigate some of the philosophic principles on which astrology rests, including aspects of the historical development of astrology and how history has shaped the way we practice. Included here will be a consideration of the relationship of astrology to science, scientific research into astrology, astrology as enchantment, the 'left-right hemisphere' debate, divination and the nature of symbol. The track aims to reflect some of the philosophical conflicts within contemporary astrology and how we, as astrologers, might creatively engage with them to the enhancement of our own practice.

Some sessions will focus on personal chart work amongst participants, so you are invited to bring a copy of your chart with you.

## Faculty and Guest Tutors

Some of the world's best known and most respected tutors have taught at our world-renowned Summer School and this year is no exception. Meet this year's Summer School team!

### **BERNADETTE BRADY**

holds a PhD in Anthropology (2012) and is co-principle of Astro Logos Ltd. She is a professional consulting and teaching astrologer who lives in Bristol, UK and is a tutor for the MA in Cultural Astronomy and Astrology, Wales University Trinity Saint David UK. Her publications include *Cosmos, Chaosmos and Astrology* (London: Sophia Centre Press, 2014), *The Eagle and the Lark – a Textbook of Predictive Astrology* (1992), *Brady's Book of Fixed Stars* (1998), *Astrology a Place in Chaos* (2006) and *Star and Planet Combinations* (2008).

**GEOFFREY CORNELIUS** has a background in philosophy and divination, and is an astrological consultant and teacher. In 1983 he co-founded the Company of Astrologers with Maggie Hyde and other leading astrologers. He has a Ph.D. in Religious Studies from Kent, and has actively promoted astrology in the academy. He currently teaches on the MA Myth, Cosmology and the Sacred at Canterbury Christ Church University. Books include *The Moment of Astrology* (Penguin Arkana 1994, revised edn. Wessex Astrologer 2003). Further details at: [www.astrodivination.com](http://www.astrodivination.com)

### **DARBY COSTELLO Hon DFAstroIs**

has been an astrologer for more than half her life and is engaged in many layers of the astrological community. She has taught at the CPA since 1988 and the Faculty since the early 1990s, and lectures and teaches internationally. She has written several books including *The Astrological Moon, Water and Fire and Earth and Air*. Darby was awarded the MA in Cultural Astronomy and Astrology at Bath Spa University

in 2006. Her consultation practice is at the heart of her working life as an astrologer.

### **CAT COX DFAstroIs**

began studying astrology 30 years ago and was awarded the Faculty Diploma in 1996. She has studied horary astrology with John Frawley and was awarded the MA in Cultural Astronomy and Astrology from Bath Spa University in 2007. She has an interest in the philosophical perspectives which inform contemporary astrology. She is also interested in the experiential dimension of astrological practice and how we work practically with symbols and myth. She is the Faculty President and Head Tutor, she practices in London and loves running workshops and groups.

### **PENNY DE ABREU DFAstroIs**

studied astrology for many years before passing the Diploma in 2001 and receiving the Margaret Hone Award for excellence in the advanced chart interpretation paper. She works as a Distance Learning tutor and has had the privilege to teach at Summer School for several years. Penny is a member of the Faculty Council and has a small practice in South London. Prior to becoming an astrologer she worked in the National Health Service.

### **BERNARD ECCLES Hon DFAstroIs**

has been teaching and writing about astrology for over thirty years, and has won numerous awards, as well as being President of the Astrological Lodge of London twice. His astrology draws on both the Ancient world and more contemporary techniques, but is always linked to the visible sky and the cycles of time and season. Astrology is still both art

and craft, he insists – a thing of joyous revelation and insight rather than mere computation.

### **KIM FARLEY DFAstroLS**

discovered astrology at her Saturn Return and has been a part of the Faculty one way or another since the early 90's. She feels immensely lucky to have taught generations of London classes alongside her home-based private practice. In her view, astrology represents the richest possible use of imagination and creative thinking. Kim is also an independent funeral celebrant.

### **STEVI GAYDON DFAstroLS**

is a Faculty tutor who teaches both in London classes and by Distance Learning. She has run an astrological practice from her home in Northamptonshire since gaining her Diploma in 2010 and her work with clients is informed by her background in life coaching and training interpersonal skills. Stevi is the Faculty's Advertising manager and is currently studying for an MA in Cultural Astronomy and Astrology at Trinity Saint David, University of Wales.

### **CLARE MARTIN FFAstroLS**

has an MA in Integrative Psychotherapy and has been a practising astrologer and teacher since 1990. She was President of the Faculty of Astrological Studies for nine years and now lives in Dorset, where she continues her writing and consultancy work and is a tutor for the Mercury Internet School of Psychological Astrology. Clare's *Mapping the Psyche* trilogy is based on the transcriptions of an introductory course she taught for the Centre for Psychological Astrology.

### **DEBORAH MORGAN DFAstroLS**

is a Faculty distance learning

tutor and runs an astrological practice based in Nottingham. She is intrigued by the interplay between inner experience, planetary cycles and the astrological seasons of the year. This forms a significant part of both her client work and personal understanding of astrology, and fits well with her fascination with subjects as diverse as mythology, neopaganism and the Western Mystery Tradition.

### **JEREMY NAYDLER**

holds a doctorate in theology and religious studies, and is a philosopher and cultural historian who lives and works in Oxford. He is author of several books and essays on the religious culture and consciousness of antiquity and its relevance to us today.

### **MELANIE REINHART DFAstroLS**

Since 1959, astrology has been central to Melanie Reinhart's life, and for the last 39 years she has been offering consultations, writing and teaching worldwide. Her special interest is meditative work, and original research on Chiron and the Centaurs.

### **JANE RIDDER-PATRICK**

has trained as a pharmacist, naturopath, herbalist, psychotherapist and historian and writes, consults and lectures on astrology, its history and present-day psychological and medical applications in the UK and internationally. Her practice is in Edinburgh, where she also teaches astrology. She has a PhD in History from the University of Edinburgh and her best-known publication is *A Handbook of Medical Astrology*. Her specialities are medical, experiential and pro-active astrology.

### **CAROLE TAYLOR FFAstroLS**

is the Summer School Programme Co-ordinator and Director of Studies, responsible for the development of the Faculty's course material. Formerly the President and Head of the London Classes, she has been a Faculty tutor for 15 years, both in London and by distance learning. Carole holds the MA (with distinction) in Myth, Cosmology and the Sacred from Canterbury Christ Church University, teaches at Heaven & Earth Workshops, and runs an astrological practice in West Sussex.

### **GRAEME TOBYN**

is a senior lecturer in the School of Community Health and Midwifery at the University of Central Lancashire, a Fellow of the National Institute of Medical Herbalists and a member of the Company of Astrologers, London. He has taught and lectured on both herbal medicine and astrology internationally and is a published author. His most recent study is 'Dr. Reason and Dr. Experience: Culpeper's assignment of planetary rulers in *The English Physitian*', in *From Masha'allah to Kepler: Theory and Practice in Medieval and Renaissance Astrology* (Sophia Centre Press, 2015).

### **POLLY WALLACE DFAstroLS**

Polly's fascination with astrology led her to the Faculty of Astrological Studies where she gained her Diploma in 2005 and also the Fiona Griffiths Award. Polly gives astrology readings and runs workshops using creative methods for exploring astrology. Her writing has been published in various journals, local and national.

# Summer School 2016 Exeter College Oxford

## Accommodation

Both standard and en-suite accommodation are available. Delegates in standard rooms share a bathroom, with a maximum of four rooms to each bathroom – all standard rooms are single occupancy. En-suite accommodation is either single occupancy or twin-set (a twin-set has two small bedrooms and a communal study/lounge area – for sharing between two friends). All the accommodation is in college, close to the lecture rooms and Faculty conference office.

Exeter is an undergraduate college and the accommodation is therefore simple but comfortable. If you do not wish to stay in college, Oxford has many hotels and guest houses to choose from – links to useful websites will be included with the course information sent to you on enrolment.

## Catering & Meal Options

There is a generous choice of hot and cold options at breakfast and lunch, and dinner is a served two-course meal. Alternatively, a half-board option is available for delegates who prefer to book just for breakfast and lunch or breakfast and dinner. A bed and breakfast option (accommodation and breakfast only) is also available.

Tea and coffee are served in the morning and afternoon breaks, and tea and coffee-making facilities are available in all bedrooms.

There is a Gala Dinner on Thursday evening, which is included in the price if you book either the full-board or the half-board (breakfast + dinner) option, and which can be added in to other booking options if desired.

A vegetarian meal option is available if booked in advance.

**PLEASE NOTE: NO AMENDMENTS CAN BE MADE TO YOUR PRE-BOOKED MEAL OPTIONS AFTER JULY 31st.**

## Non-Residential & Day Delegate Options

A non-residential option is available if you prefer to make your own arrangements for accommodation. You are also welcome to book for single days or half days on the Astrology in Action Course, either residential or non-residential. The full list of fees and options can be found on the following pages.

## Course Cancellation & Travel Insurance

All bookings for the weekend and five-day courses incur a non-refundable deposit (see course fees), which is payable if you cancel before 30th June. No refunds will be paid on cancellations made after the 30th June.

In the very unlikely event that one of the courses attracts too few students for us to run it successfully, the Faculty of Astrological Studies reserves the right to cancel that particular course. This is a very unlikely situation, but if you are travelling from outside the UK and booking a flight in advance, you are therefore advised to obtain travel insurance.

## Midheaven Astrological Bookshop

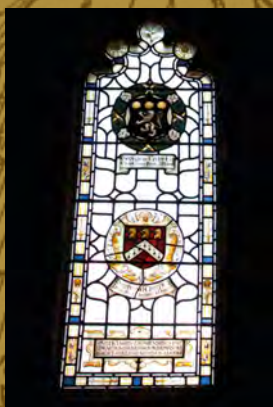

A full range of astrological books, journals and magazines will be available to buy – order in advance or browse on the day. See [www.midheavenbooks.com](http://www.midheavenbooks.com) or email John Etherington at [midheaven@compuserve.com](mailto:midheaven@compuserve.com)

## Additional Workshops

Sunday and Wednesday are free afternoons for you to relax or explore Oxford. Alternatively, join one of the optional sessions listed right

## Evening Lectures

## Gala Dinner on Thursday Night
